JS 01 FR

WHAT IS JAVASCRIPT

Javascript is one of the most widely used computer languages. Javascript lets webpages move and change.

HELLO JAVASCRIPT.

Hello JavaScript.

> console.log('Hello World')

Qu'est-ce que ça fait ?

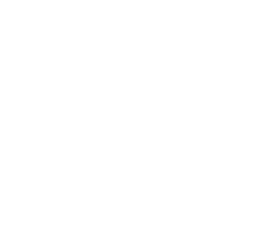

WHY LEARN JAVASCRIPT?

Typed code allows complex concepts to be written in just a few lines. These concepts allow web pages to talk to other computers.

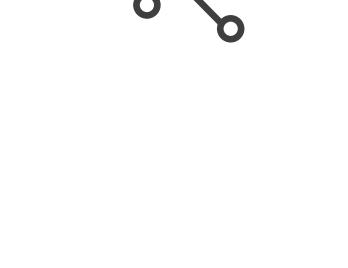

LET'S WRITE SOME JAVASCRIPT.

Let's start by using the terminal of our browser

WEB DEV

Build your first server using google's Colab servers
